DEC Region # 9 County: Chautauqua Lead Agency: Villanova Town Board

Project Title: Ball Hill Wind Energy Project

Brief Project Description: The action involves . . .

The action involved is the proposed Ball Hill Wind Project, a wind energy generation facility, that will include 29 wind turbines (23 in Villanova and 6 in Hanover) each with a nameplate generating capacity of 3.45 megawatts (MWs), with a project total nameplate generating capacity of 100.5 MWs. The wind turbines presently being considered for the project are the Vestas 3.45 MW class wind turbines, which have a total height of 150 meters (492 feet) with the blade at its highest point. In addition to the turbines, the project includes construction and operation of approximately 13 miles of gravel access roads, approximately 19.8 miles of underground (buried) electrical collection lines and/or communication cables, an operations and maintenance (O&M) facility, an overhead 115 kv transmission line up to 5.7 miles long, and a southern substation and associated point of interconnection switchyard in the northern portion of the project area. In addition to the permanent components of the project, the project will require temporary laydown areas and construction work spaces. The project is located in portions of the Towns of Villanova and Hanover, Chautauqua County, New York.

Project Location (include street address/municipality): Portions of Villanova and Hanover In Chautauqua County NY
